Independent mobility allows you to remain active & connected to the rest of the world...

MEDAccess, Inc. was developed to address the many accessibility challenges that individuals with physical limitations face. By creating awareness of accessibility obstacles in their environment, MEDAccess, Inc. strives to improve the quality of life for physically challenged individuals. Our goal is to promote independence, increase productivity, and reduce unnecessary stress.

MEDAccess, Inc. has a Licensed General Contractor and a Registered Nurse on staff to provide you with knowledgeable solutions with individual needs. Upon request, MEDAccess, Inc. will work together with your healthcare providers (i.e., physician, physical therapist, hospital, nursing home, etc.), medical equipment suppliers, insurance companies, architects & engineers, business & commercial property owners, building contractors & remodelers and real estate agents.

Our consultants will conduct a verbal or written assessment/consultation. Our Access Utilization Study relates to specific accessibility issues in the your home or workplace. The level of detail involved is determined by the specific assessment service chosen. MEDAccess, Inc. also provides Letters of Justification for clients seeking insurance coverage, grants and loans.

MEDAccess, Inc. offers for sale or lease a full line of portable & permanent, residential & commercial, aluminum modular ramps and rubber threshold & transition ramps, as well as electric wheelchair vertical / platform lifts. **Short & long term leasing available for selected products** Check out our website at: www.medaccessinc.com.

To learn more about MEDAccess, Inc. and the services & products we can provide, please feel free to contact us at 828-264-4085 or toll-free 877-264-4085 with questions or comments.

Thank you,
MEDAccess, Inc

Residential Aluminum Modular Ramp

The **Residential Aluminum Modular Ramp** system has been engineered to be an extremely light and flexible modular system composed of ramps, platforms, and steps in a variety of standard sizes. This ramp system is constructed of all welded high strength aluminum alloy, fully anodized for a beautiful and durable finish. The Residential Aluminum Modular Ramp meets all ADA and ANSI guidelines. Installation is quick and easy.

Residential Aluminum Modular Ramp Features:

- 5 year warranty
- Revolutionary insert design: no set screws or rivets required
- Legs can be recessed under the system for a clean look
- Quick & easy assembly using a ½" wrench
- All anodized aluminum: ensures handrails and ramp will not chip, flake or rust
- Rugged skid resistant surface that cannot wear off
- Universal platforms available
- No footing required

**Custom sizes available
on ramps, platforms and steps**

MEDAccess, Inc. can assist with the proper ramp design. Call or e-mail us to discuss your project

ALL MAJOR CREDIT CARDS ACCEPTED!
LEASING AVAILABLE in Selected Areas
Check out our **BUY BACK PROGRAM**

Commercial Aluminum Modular Ramp

The **COMMERCIAL ALUMINUM MODULAR RAMP** system has been developed to meet the more stringent demands of IBC and BOCA building codes, i.e. when a picket rail is required or a 4' wide walking surface is necessary. The ramp system is all aluminum, fully customizable, and can be configured to meet other specialized building codes as required. The simple, modular ramp design ensures easy setup and the ability to reconfigure and relocate the system. Useful for schools, churches, and businesses.

- **10 year warranty**
- Complies with ANSI, IBC, BOCA, SBCCI, CABO, Florida SREF and ADA
- Revolutionary insert design: no set screws or rivets required
- Legs can be recessed under the system for a clean look
- Assembles easily with a ½ " wrench
- All anodized aluminum: ensures handrails and ramp will not chip, flake or rust
- Heavy duty welded aluminum construction
- Rugged skid resistant surface that cannot wear off
- Universal platforms
- 3 handrail options: 42 " guardrails & 38 " handrail & 38 " 2 line rail

Custom sizes are available on ramps, platforms and steps.

MEDAccess, Inc. can assist with the proper ramp design.

Aluminum Quick Ramp

The ALUMINUM QUICK RAMP wood system is a pre-engineered kit designed to combine the economic savings of wood with the strength and ease of our modular aluminum ramp systems. With these kits, an individual can quickly and easily build and install a full ramp system. Instructions are included that provide ADA guidelines, handrail options, and cut lists for the required lumber. A truly economical option that is easier than designing from scratch in all wood.

ALUMINUM QUICK RAMP KIT

FEATURES:

- 4', 6', 8' and 10' ramp lengths
- Quick Ramp Platform Kits come in 60" x 60" and 60" x 96" sizes
- Kits come complete with aluminum ramp components, support assemblies, and stainless steel fasteners
- Designed for quick assembly
- Modular design allows for ramp to be moved and reused

Ready Ramp

The **COMPACT READY RAMP** offers excellent portability where **LONGER** lengths are required. Unfolds to its full size in **3 EASY STEPS**. Constructed of welded aluminum with a black non-skid surface. Recessed hinges provide a ramp surface free of obstructions.

Stores in the trunk of
your vehicle.

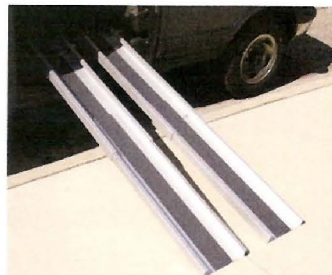

Open Size	Closed Size	Weight
6' x 30"	42" x 15"	29 lbs
7' x 30"	48" x 15"	38 lbs
8' x 30"	56" x 15"	40 lbs
10' x 30"	68" x 15"	50 lbs
600 lb capacity		

Telescopic Channel Ramp

The **COMPACT**, lightweight **TELESCOPIC CHANNEL RAMP** combines **EASY** portability and **FAST** accessibility. The anodized channels slide together smoothly, extending to nearly double length. Features include a black non-skid ramp surface.

Each ramp includes two channels.

Open Size	Closed Size	Weight
6' x 7.5"	42" x 7.5"	30 lbs
8' x 7.5"	54" x 7.5"	39 lbs
10' x 7.5"	70" x 7.5"	51 lbs
600 lb capacity		

Solid Curb Ramp

The **SOLID CURB RAMP** features all welded aluminum construction. Its permanent, non-skid surface is integral to the aluminum and cannot tear or wear off.

EXCELLENT when used as a short, fixed ramp or for temporary & permanent access.

Open Size	Weight	Open Size	Weight
*3' x 30"	18 lbs	3' x 36"	20 lbs
*4' x 30"	24 lbs	4' x 36"	26 lbs
5' x 30"	30 lbs	5' x 36"	32 lbs
6' x 30"	37 lbs	6' x 36"	41 lbs
600 lb capacity

Rubber Transition Products

All Transitions are made from
ReCycled Rubber Tires

EZ Edge Transition

Utilizing a one-piece door transition with molded miter ends for an accessible and safe three sided approach. Designed and tested for maximum slip resistance exceeding the requirements set by OSHA and recommended by ADAAG and federal law. Eliminates the worry of bending or breaking the ramp due to heavy loads since this durable product possesses no weight load limitations.

Elegant Transitions

Presenting a superior slip-resistant surface. Extensively tested for extended wear by tabor abrasion, tensile strength and elongation. Revealing a long lasting attractive coating technology that truly is state of the art.

Entry Level Landings

Alleviates the hassle of schedule changes and detouring walking traffic due to extended concrete cure times.

Available with ramped access from a single side to a three-sided "path-of-travel" approach.

Our landings offer solid, safe transitions while reducing risk, and satisfying specific access building code laws.

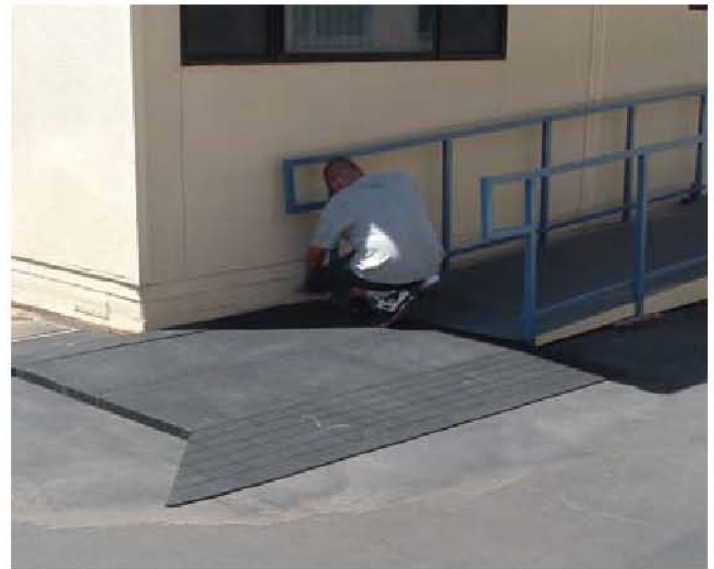

Rubber Transition Products

RampEnd Landings

Access landings at the end of most modular ramps currently represent one of the largest access code violations in the modular building construction industry. When a new modular building is constructed, it is generally the landing that fails to meet State and Federal Code Standards. Concrete and asphalt rarely solves these problems due to improper grade levels and required maneuverable level surface areas.

All Transitions are made from
ReCycled Rubber Tires

CourtEdge Reducer

Providing a safe and easy transition from the playing surface to the original floor, reducing injury to athletes and spectators with this exciting new “green” slip resistant ADA compliant product.

Installation is accomplished in minutes

CounterMeasures

Meet your food service counter top height code requirements without major construction. Custom fitted for your service counters to adjust for vertical height requirements identified by federal and state. The most efficient and most affordable method to modify your food service counters to comply with federal and state access code laws.

Vertical Wheelchair Lifts

Independent mobility allows you to remain active and connected to the rest of the world. Your personal freedom and quality of life is important to MEDAccess.

Offering Safety & Convenience

Designed for smooth, quiet performance, this lightweight, dependable and versatile unit is perfect for residential or commercial application.
